Subject: Application (NRC Form 7) for Export of Minor Components to People's Republic of China

Dear Deputy Director:

Curtiss-Wright Corporation ("Curtiss-Wright") hereby submits the attached Application for License and application fee of \$9,200.00 for the export of various components and spare parts to be installed into the proposed civil nuclear reactors Sanmen 3&4.

Curtiss-Wright has previously applied for an export license for major components to these same reactors (XR-177). XR-177 would normally also cover the minor components listed in this new license application, however the Chinese customer has indicated that they are not going to provide assurances for XR-177 in the near future and we need a license soon in order to meet our contractual obligations. For this reason, Curtiss-Wright respectfully requests expedited processing of this application to the extent that US governmental agencies have control.

If any additional information is required to process this application, or if there are any questions, please contact the undersigned at 714-982-1825; Email edavis@curtisswright.com.

Sincerely,

Elaine Davis
Manager, Export Compliance
