September 27, 1979

Director of Nuclear Reactor Regulation
Attn: Mr. Thomas Ippolito, Chief
Operating Reactors Branch #3
U. S. Nuclear Regulatory Commission
Washington, D. C. 20555

Re: Nine Mile Point Unit 1
Docket No. 50-220
DPR-63

Dear Mr. Ippolito:

On August 17, 1979, Niagara Mohawk responded to the Fire Protection Safety Evaluation Report for Nine Mile Point Unit 1, dated July 26, 1979. In our response, we proposed to encapsulate diesel generator 103 output cables instead of rerouting. Niagara Mohawk understands that the Nuclear Regulatory Commission is currently evaluating this proposal.

By this letter, we request that this evaluation be expanded to consider encapsulating diesel generator 102 control cables as well. These control cables can be encapsulated similar to that proposed for diesel generator 103 output cables such that three hour fire barrier protection is assured.

Very truly yours,

NIAGARA MOHAWK POWER CORPORATION
