PLAN REVIEW

Dear Mr. Shea:

The U.S. Nuclear Regulatory Commission (NRC) staff has reviewed Revision 12 to the "University of Florida Training Reactor Operator Training and Requalification Program," that you submitted by letter dated July 25, 2017 (Agencywide Documents and Management System (ADAMS) Accession No. ML17206A378), as supplemented on November 28, 2017 (ADAMS Accession No. ML17332A085). Our review concluded that the proposed changes are consistent with guidance contained in industry standard American National Standards Institute/American Nuclear Society-15.4-2016, "Selection and Training of Personnel for Research Reactors," and meet the applicable requirements of Title 10 of the *Code of Federal Regulations* (10 CFR) Section 50.54 (i-1) and 10 CFR Part 55 and are acceptable. We request that you begin to implement your approved program immediately.

In accordance with 10 CFR 2.390 of the Commission's regulations, a copy of this letter will be placed in the NRC Public Document Room. If you have any questions, please contact me at (301) 415-3724 or by electronic mail at Duane.Hardesty@nrc.gov.

Sincerely,
