Attached is the draft of the summary report for the full scope audit of the CRN ESP environmental report (as supplemented) which began on May 15, 2017. Before this is released to the public, NRC would request that TVA check for any factual errors, discrepancies or proprietary information and make any markups in track-changes mode. Any input TVA might have is requested by COB on COB Thursday (1/11/18).

Let me know if you have any questions.
