AMENDED RESPONSE TO FSAR QUESTION 110.57  
ER 100450/100508 FILE 841-2  
PLA-2142

Docket Nos. 50-387  
50-388

Dear Mr. Schwencer:

This letter is provided to confirm a March 19, 1984 telephone conversation between Mr. W. W. Williams and M. Sager of PP&L and Mr. D. Terao of your staff regarding our response to FSAR Question 110.57.

As a result of our conversation, we are amending part d to our response to delete the commitment to visually inspect for vibrational effects on the control rod drive system insert and withdraw lines during steady state conditions. Visual inspections on Unit 1 lines revealed no appreciable vibratory effects. In addition, we believe that the flow rates within these lines (2 gpm for the insert lines, 3 gpm for the withdraw lines) is not significant enough to cause any appreciable vibratory effects on the lines.

An FSAR revision reflecting this position will be provided. Should you have any questions, please call.

Very truly yours,

N. W. Curtis  
Vice President-Engineering & Construction-Nuclear

Handwritten marks at the top right corner.

Handwritten text in a cursive script, appearing to be a letter or document. The text is arranged in several paragraphs, with some lines indented. The handwriting is somewhat faded and difficult to decipher, but it appears to be a formal or semi-formal communication. There are some small, illegible marks and possibly initials scattered throughout the text.

50-388

Dear Mr. Denton:

In accordance with 10CFR50.71(b), attached are ten copies of the 1983 annual report for Pennsylvania Power & Light Co. The annual report for Allegheny Electric Cooperative, Inc., will be forwarded when it is issued later this year.

Very truly yours,

N. W. Curtis  
Vice President-Engineering & Construction-Nuclear
