NUCLEAR REGULATORY COMMISSION**
WASHINGTON, D.C. 20555-0001

February 16, 2018

Mr. Adam C. Heflin
President, Chief Executive Officer,
and Chief Nuclear Officer
Wolf Creek Nuclear Operating Corporation
Post Office Box 411
Burlington, KS 66839

**SUBJECT: WOLF CREEK GENERATING STATION, UNIT 1 – WITHDRAWAL OF AN
AMENDMENT REQUEST (EPID L-2017-LLA-0430)**

Dear Mr. Heflin:

By letter dated December 19, 2017 (Agencywide Documents Access and Management System (ADAMS) Accession No. ML17363A134), Wolf Creek Nuclear Operating Corporation (WCNOC, the licensee) submitted a license amendment request for changes to the Radiological Emergency Response Plan for Wolf Creek Generating Station, Unit 1, Renewed Facility Operating License No. NPF-42. The proposed changes would have (1) revised the standardize response times for the technical support center, operations support center, and emergency operations facility to a 90 minute activation time; (2) replaced the current full-time licensed medical practitioner position with first aid responders; (3) reduced the number of required emergency response organization positions; and (4) removed reference to performing dose assessment using containment pressure indication.

The U.S. Nuclear Regulatory Commission (NRC) staff requested for supplemental information needed to complete the acceptance review of the proposed licensing action by letter dated January 29, 2018 (ADAMS Accession No. ML18024B432). Subsequently, by letter dated February 5, 2018 (ADAMS Accession No. ML18043A120), WCNOC withdrew the license amendment request.

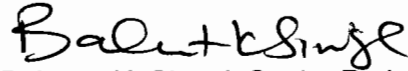

The purpose of this letter is to advise that the above-cited application is being treated as withdrawn. Notice of Consideration of Issuance of the proposed amendment had not been published in the *Federal Register*.

A. Heflin
