Reference 1) Letter WO 17-0093, dated December 19, 2017, from C. O. Reasoner, WCNOC, to USNRC

Reference 2) Letter dated January 29, 2018, from USNRC, to A. C. Heflin, WCNOC

Subject: Docket No. 50-482: Withdrawal of License Amendment Request for Revision to the Emergency Plan (EPID L-2017-LLA-0430)

To Whom It May Concern:

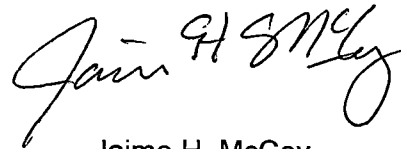

Reference 1 provided Wolf Creek Nuclear Operating Corporation's (WCNOC) License Amendment Request (LAR) that proposed a revision to the Emergency Plan. The proposed changes would: (1) revise the standardized response times for the technical support center (TSC), operations support center (OSC) and emergency operations facility (EOF) to a 90 minute activation time; (2) replace the current full-time licensed medical practitioner position with First Aid Responders; (3) reduce the number of required emergency response organization (ERO) positions, and (4) remove reference to performing dose assessment using containment pressure indication.

A teleconference with Nuclear Regulatory Commission (NRC) personnel occurred on January 25, 2018, as a follow up to Reference 2 in which the NRC informed WCNOC that supplemental information is necessary to enable the NRC staff to complete the acceptance review. During the teleconference, the NRC verbally provided the reasons for the NRC staff actions. Therefore, WCNOC is withdrawing the license amendment request submitted by Reference 1.
