Bade Properties never rented any portable devices. It was our intent to rent devices, however, the person who was trained to conduct our field testing resigned just after training. So we did not conduct any of our own field testing. Bade Properties has always subcontracted our field testing work to other companies. The only type of testing that we had subcontracted is density testing for backfilling and compacting excavations.

Please feel free to contact me at your convenience should you have any questions either on my cell phone (231) 357-2895 or by email at chrisbade@asienvironmental.com.

Thank You

Christopher Bade

Hello Chris,

Thank you for your response. I have no issues with your statement, but can you please send it back to me as an attached document that is both signed and dated? Unfortunately, we cannot accept statements/commitments via email at this time.

Please let me know if you have any questions.

Thank you,
Laura

Subject: NRC Materials License No. 21-35083-01 Termination Request

Hello Chris,

My name is Laura Cender and I am currently processing your NRC license termination request. From the records provided it appears that you have not purchased any gauges yourself, but our inspection records show that you have previously rented portable gauging devices. Please provide a list of the companies from which you have rented licensed material and rental return records showing the last day that you have possessed licensed material under a rental agreement.

Please feel free to contact me at 630-829-9712 or via email with any questions.

Thank you,
Laura
