Subject: [External_Sender] RE: Clarify Model of device and Confirm isotope of additional source requested Western Energy Company License # 25-29348-01; Docket: 030-38041; Control: 602072
Attachments: Cover Letter to NRC 1-29-18.pdf

Thanks Jackie – I spoke with Rob Belnap of Thermo Fisher and he did verify the model number and the isotope. I have also included a copy of an email from Renee Small of Thermo Fisher.

If you need any further information please let me know.

Thanks again – Nora Buchholz

Subject: Clarify Model of device and Confirm isotope of additional source requested Western Energy Company License # 25-29348-01; Docket: 030-38041; Control: 602072
Importance: High

Good Afternoon Ms. Buchholz: Per our telephone conversation on Monday, January 22nd, this is a follow-up.

Please note that your amendment request dated December 11, 2017 states that the source will be contained in Thermo Fisher Cross Belt Analyzer Model CBX; however, Item 6 of the amendment request specified a Thermo Gamma Metrics Model CDX fixed gauge device.

Please clarify this discrepancy.

In addition, please confirm the isotope of the additional source requested.

Either resubmit your amendment request making the necessary corrections or please submit a response in a signed and dated letter on the licensee's letterhead **no later than Tuesday, February 6, 2018**. Upon receipt of this clarification and confirmation, I will complete my technical review using the licensing guidance in NUREG-1556, Vol. 4, Rev. 1, dated July 2016. Upon satisfactory review, I will issue your amendment to your license accordingly, as requested.

Thank you in advance for your response and assistance in this matter.

Sincerely,

Ms. Jacqueline "Jackie" D. Cook
Senior Health Physicist
US Nuclear Regulatory Commission Region IV
Division of Nuclear Materials Safety
Materials Licensing and Inspection Branch
