Hi Christine,

I have been unable to locate a record of receiving the November 14, 2017 letter. It could just be that Scott passed it on to another biologist in the office.

Regardless, we would not have any comments on the proposed amendment and exemption. And as the letter states, there is no need to consult with us since the NRC has made a no effect determination.

I hope this information helps!

Regards,
Marissa

Hello Marissa,

This is a follow-up to a voicemail I left for you yesterday afternoon. I sent the attached letter to Scott Pruitt in November and would like to know if he or you plan to provide a response, either by letter or email. Although the letter does not request a response, it would be great to get some documentation for close-out and complete recordkeeping. Let me know what would work, or please call me if you have any concerns or questions.

Kind Regards,

Christine
