Attachments: University Fuel Support Contracts.doc

Duane,

I was incorrect when I said that the contract expired on December 31, 2022, it is actually December 31, 2020. I was not able to get to my records because they are currently recarpeting my office. I have requested a copy of the contract amendment from our procurement office and I will forward it when it arrives.

Attached is the updated table that you requested.

Let me know if you need anything else.

Thanks, Doug

Doug:
UMASS Lowell in this case, but I'd also appreciate an update to the table in the email I originally sent. See attached. We put this file in ADAMS for reference in any safety evaluations.
Thanks,
Duane

Duane,

All of the university contracts have been extended, but I should have asked which university you are looking for. Once I know which university you are interested in, I will get a copy from my subcontract administrator and send it to you.

Thanks, Doug

These contracts have been extended. I believe the expiration date is now December 31, 2022, but I will confirm that and send you a copy of the revised contract hopefully tomorrow.

Thanks, Doug

Yes, as far as I know Kenny Osborne is still running that program (RRI). The program lead is Doug Morrell at INL. I have copied him on this email. He was our primary contact on the fuels program when I was at Penn State.

Brenden:

Is Kenny still running the Fuels support contracts? I know they are automatically renewed, but we need the documentation and our says they expired as of December 31, 2017. Can you help?

Regards,
Duane
