Mr. Troy Curnutt  
Radiation Safety Officer  
Troy Curnutt Consulting  
2861 Lois Lane  
Pocatello, ID 83201

SUBJECT: ACKNOWLEDGEMENT LETTER TO LICENSE NUMBER 11-35248-01

Dear Mr. Curnutt:

We acknowledge receipt of your letter received January 8, 2018, informing us that you will be moving to a new location of use and storage for licensed activities. In addition, you stated that two sealed sources (from your latest inventory) will be transferred to Diagnostic Imaging Services of Idaho, License Number 11-34221-01 until your new location of use and storage construction is complete sometime in March 2018. You state that you will add these two sealed sources to Diagnostic Imaging Services of Idaho's inventory. Upon completion of the construction of your new location of use and storage, you will submit an amendment to your license to add the new location of use including a diagram showing where the sources will be stored and/or used. In addition, please submit final status surveys and/or the latest leak test results if only sealed sources were used and a statement that the sources never leaked while at the previous location of use and storage, as appropriate. Also, let us know if you want the previous location of use and storage released for unrestricted use in accordance with 10 CFR 20.1402.

In accordance with 10 CFR 2.390 of the NRC's "Rules of Practice," a copy of this letter will be available electronically for public inspection in the NRC Public Document Room or from the NRC's document system (ADAMS). ADAMS is accessible from the NRC Web site at <http://www.nrc.gov/reading-rm/adams.html>.

Thank you for your cooperation.

Sincerely,

/RA/

Jacqueline D. Cook, Senior Health Physicist  
Materials Licensing and Inspection Branch
