Subject: Amendment Requests to Update Framatome Inc. License Company Names

Due to the recent AREVA group changes, several NRC import and export licenses must be updated to specify our new company name, Framatome Inc., as the licensee. Additionally, one license includes a Framatome affiliate as an intermediate consignee whose name has also changed and must be updated.

To address these issues, six license amendment applications are attached along with authorization for payment.

AREVA/Framatome has several license applications and amendments already in progress. These licenses must be updated as well to reflect the new company name. On two of these licenses, it was noted that a PO box was used as the address of the Advanced Nuclear Fuels GmbH Lingen Germany facility. This facility's address should be updated to the Lingen street address provided on license XSNM3697.
