Subject: Information We Want on the Docket from MRP-227, Rev. 1 RAI Discussion
Date: Thursday, February 22, 2018 9:47:00 AM

Good morning Kyle,

Here is where the staff would like to have details on the docket from the information presented at the meeting yesterday. If the information is proprietary and can be covered by an existing affidavit you can say that in the letter and avoid another affidavit. If I get any other information I will forward it onto you.

Industry response to observed degradation (Slide 6)

Relevance of BWR experience (Slide 7-8)

Slides 10, 11, 12

Response to Question 1, particularly MRP-191 Rev. 2 FMECA information compared to the previous FMECA information.

Question 3, Information on CRDM Drop Testing---Brian's explanation (in the meeting and during the break) with drawings.

Question 4 – All.
