Subject: Request to place issuance of CoC 9261 Revision 10 on hold

Reference: USNRC Docket Number 71-9261, CAC No. L25080

- [1] Holtec Letter 5014838, dated January 17, 2018
- [2] Holtec Letter 5014823, dated May 1, 2017
- [3] Holtec Letter 5014814, dated August 22, 2016
- [4] Holtec Letter 5014799, dated January 29, 2016

Dear Mr. Saverot:

Holtec has recently submitted Revision 17 of the HI-STAR 100 SAR [1] in support of HI-STAR 100 CoC 9261 Amendment 10 [4]. However, Holtec has identified that in order to fully support the implementation of the proposed changes, a modification to the SAR may be required. In order to avoid an additional amendment for this modification, we request that the currently pending Revision 10 of the CoC be placed on hold until the modification is fully evaluated, documented and submitted. We don't expect this to take long and will inform you as soon as the firm submittal date is established.

If you have any questions, please contact me at (856)-797-0900, ext. 3844.

Sincerely,

Royston Ngwayah
Licensing Engineer
Holtec International
