Updated ARRR Security Plan

Ladies and Gentlemen:

Enclosed please find the updated Security Plan for ARRR. The changes comply with 10 CFR 50.54 p(2). This updated plan does not reduce its predecessor's effectiveness (dated February 2005); the changes are mainly administrative in nature. The sections on handling classified information concerning parts and radiographs were not relevant to the ARRR's security thus were removed. The updated ARRR Security Plan is enclosed and has been placed into service.

Should you have any questions or require additional information regarding this submission, please contact AO President David M. Slaughter, Ph.D. at (801) 631 5919 or dmsraven@gmail.com

Sincerely yours,

David M. Slaughter, Ph.D.
President and Reactor Administrator
Aerotest Operations, Inc.
