Docket 70-7016

SUBJECT: (U) GLOBAL LASER ENRICHMENT REVISED ISA SUMMARY PER 10 CFR
70.72(d) for SNM-2019

The requirements in 10CFR 70.72(d)(3), call for licensees to submit to NRC annually, revised Integrated Safety Analysis (ISA) Summary pages. The purpose of this letter is to inform the NRC that GE Hitachi Global Laser Enrichment, LLC (GLE) has not made changes to the ISA Summary since the initial licensing for the GLE Commercial Facility license SNM-2019 (Reference 1) was issued on September 25, 2012. The Commercial Facility license SNM-2019 is being held in abeyance, until such time as GE plans on building said facility. Any changes needed to keep the License current with the regulations will be reviewed and updated as appropriate prior to construction.

Please contact me at (910) 819-7447 or at pat.jenny@ge.com if you have any questions, or would like to discuss this submittal.

Sincerely,

Pat Jenny
GLE Security/Licensing Manager
