2. Please send a signed and dated letter requesting to terminate the following NRC license:

3. In the letter requesting the termination of NRC license 32-31360-01, please state the disposition of the licensed material under that license (i.e. transferred to another license/licensee, properly disposed of in accordance with NRC regulations).
4. If you have transferred the licensed material to another licensee or properly disposed of the licensed material, please attach copies of the latest leak checks for each individual device containing licensed material.
5. Please have representative of your company, which is authorized to make binding commitments and to sign official documents on behalf of your company, sign and date the letter for the void request and the termination request.

If you have any questions you may reference NUREG-1556, Volume 1, Revision 2, "Consolidated Guidance About Materials Licenses: Program-Specific Guidance About Portable Gauge Licenses" located at: [NRC: Consolidated Guidance About Materials Licenses: Program-Specific Guidance About Portable Gauge Licenses, Final Report \(NUREG-1556, Volume 1, Revision 2\)](#) or you may call me at the below number.

Your reply must be an originally signed and dated letter. The letter may be scanned and submitted as a pdf document attached to an email; or it may be transmitted by facsimile to (610) 337-5269; or it may be sent by regular mail. If we do not receive a reply from you within 30 calendar days from the date of this e-mail, we will assume that you do not wish to pursue your termination request.
