**Subject:** Pilgrim Nuclear Power Station

Regional Administrator Ford,

I am writing to notify you that all of the Emergency Planning Zone (EPZ) communities for Pilgrim Nuclear Power Station – Duxbury, Marshfield, Carver, Plymouth and Kingston - have been greatly impacted by today's nor'easter and currently have numerous impassable roadways because of downed trees and utility wires, and storm debris. Duxbury and Marshfield have issued travel bans in their communities until at least 6 AM Saturday morning, and all five communities report that their ability to successfully evacuate their residents in the event of a release or threatened release of radiation from Pilgrim Nuclear Power Station is significantly compromised. Given this, it is not feasible at this time to execute an evacuation of the EPZ under the radiological emergency response plan.

MEMA is providing this notice to FEMA because we are not able to implement the evacuation components of our radiological emergency response plans. Please let me know if you need additional information, and I am available by phone.

Sincerely,  
Kurt

**Kurt Schwartz**
