

UNITED STATES  
NUCLEAR REGULATORY COMMISSION  
WASHINGTON, D.C. 20555-0001

March 14, 2018

Ms. Mary J. Fisher  
Vice President, Energy Production  
and Nuclear Decommissioning  
Omaha Public Power District  
Fort Calhoun Station  
9610 Power Lane, Mail Stop FC-2-4  
Blair, NE 68008

SUBJECT: FORT CALHOUN STATION, UNIT 1 – CHANGE IN U.S. NUCLEAR  
REGULATORY COMMISSION STAFF PROJECT MANAGEMENT

Dear Sir or Madam:

On April 1, 2018, the U.S. Nuclear Regulatory Commission (NRC) staff project management for your facility will transfer from the Office of Nuclear Reactor Regulation, Division of Operating Reactor Licensing, Special Projects and Process Branch, to the Office of Nuclear Material Safety and Safeguards (NMSS), Division of Decommissioning, Uranium Recovery, and Waste Programs (DUWP). This transfer is in accordance with internal NRC office interface agreements and is based on the completion of certain licensing actions that establish a licensing and safety basis reflecting the permanently shutdown and defueled condition of your facility. This change in regulatory oversight will enhance NRC processing of any decommissioning-related licensing actions that you may elect to submit and it will secure NMSS experience and expertise in the evaluation of any future dismantlement, decontamination, spent fuel storage, reactor vessel transportation, and license termination activities.

Mr. Jack D. Parrott, NMSS/DUWP, has been assigned as your new Project Manager and will relieve Mr. James Kim of his duties effective April 1, 2018. Mr. Parrott can be reached at (301) 415-6634. If you have any questions or comments regarding this change in project management oversight, please call Mr. James Kim at (301) 415-4125.

Sincerely,

A handwritten signature in black ink, appearing to read "Doug Broadus", is written over a horizontal line.

Douglas A. Broadus, Chief  
Special Projects and Process Branch  
Division of Operating Reactor Licensing  
Office of Nuclear Reactor Regulation

Docket No. 50-285
