Attachments: Model 2000 Revised Draft CoC R27 3-6-18.pdf

As we discussed today. For the SER, use the same password as before.

CoC

- 1) page 1 Section 5.(a)(2) the cavity is approximately 54 inches deep.
- 2) page 2 Section 5.(a)(2) the optional spacer is used for shoring not shielding.

SER:

- 1) Several areas contain GEH proprietary information. Some of it was previously identified in this version. Additional proprietary information is highlighted. Would it be possible to review the public version to ensure that this information is being withheld?
- 2) Several spelling errors are flagged.
- 3) Section 5.4.4.1: Table 5.4-13 is not a real table.
- 4) Section 3.1: There is no lead on the bottom of the GE2000 cask
