March 6, 2018

Mr. Bryan C. Hanson
Senior VP, Exelon Generation Company, LLC
President and CNO, Exelon Nuclear
4300 Winfield Road
Warrenville, IL 60555

**SUBJECT: NRC PARTICIPATION IN THE LASALLE COUNTY STATION EMERGENCY
PREPAREDNESS EXERCISE**

Dear Mr. Hanson:

The U.S. Nuclear Regulatory Commission (NRC) routinely participates in licensees' Emergency Preparedness Exercises to ensure that the NRC's Incident Response capabilities are effectively maintained and to provide licensees an opportunity to exercise the interface with the NRC during response to an incident at their sites. The purpose of this letter is to inform you of our intent to participate in the LaSalle County Station Emergency Preparedness Exercise that is scheduled to occur on August 7, 2018. Currently, the extent of participation will involve regional response staff and very limited headquarters staff.

During the exercise the NRC's response will involve activating our Region III Incident Response Center and dispatching an NRC Site Team, including our resident inspectors, to your emergency response facilities on August 7, 2018. If our scope of participation changes, we will contact your emergency preparedness staff to discuss the changes. We will also be coordinating with your staff to schedule pre-exercise outreach activities that we offer to our licensees. The emergency response coordinators will conduct a presentation and provide training materials to assist your staff in exercising with the NRC. The NRC outreach efforts, conducted by my staff, are tools to further reinforce concepts related to NRC incident response activities.

This letter will be made available for public inspection and copying at <http://www.nrc.gov/reading-rm/adams.html> and at the NRC Public Document Room in accordance with 10 CFR 2.390, "Public Inspections, Exemptions, Requests for Withholding."

If you have any questions concerning our participation, please contact Brent Boston, Region III Emergency Response Specialist at 630-829-9764, or myself at 630-829-9707.

Sincerely,

/RA/

Hironori Peterson, Chief
Health Physics and Incident Response Branch
Division of Reactor Safety
