Gaby (which is also my daughter's name): I went ahead and sent a FOIA to DOE regarding the licenses, but I saw another document that indicated NRC might be the right agency. So to cover my bases, can you supplement the FOIA to request any and all documents relating to the following US Atomic Energy Commission licenses: 1) License No. SUB-429 and 2) License No. 31-1069-2. These would have been issued to Electro (from previous FOIA) and thus should have been captured in the previous request but because they are so old, maybe this specificity will help.  
Let me know if I need to file something online.
