

**Public Meeting Regarding Draft Regulatory Issue Summary
2002-22, Supplement 1, “Clarification on Endorsement of
Nuclear Energy Institute Guidance in Designing Digital
Upgrades in Instrumentation and Control Systems”**

March 14, 2018

Harold Chernoff, Chief
ROP Support and Generic Communications Branch
Office of Nuclear Reactor Regulation
U.S. Nuclear Regulatory Commission

Agenda

- Introductions and Opening Remarks
- Introduction of Focused RIS Topics
 - Topic 1 – 9:30 am - 10:15 am
 - Limitations
 - Topic 2 – 10:15 am – 11:00 am
 - Simple Digital I&C Modifications
 - Break - 11:00am – 11:15 am
 - Topic 3 – 11:15am – 12:00pm
 - Engineering Evaluations
- Stakeholder General Remarks
 - Stakeholder General Remarks – 12:00pm – 12:20 pm
- Next Actions and Closing Remarks
 - Next Steps – 12:20pm – 12:50pm
 - Closing Remarks – 12:50pm – 1:00pm

Limitations

- Understood Limitations
 - Reactor Protection System
 - Engineering Safety Features Actuation System
- Possible Limitations
 - Highly Complex
 - Other

Simple Digital I&C Modifications

- Characteristics
- Examples

Engineering Evaluation Discussion

- Value of Discussion
- Alternatives

Stakeholder General Remarks

Next Actions and Closing Remarks
