SUBJECT Table Title Question					
SUMMARY NRC participants: Chris Allen During its review of an amendment request by GNF-A, staff noted that a title in safety analysis report (SAR) Table 1.1 on page 1-8 was very similar to a title in SAR Table 6.1 on page 6-1. The title in SAR Table 1.1 was "Homogeneous Uranium Oxide Compounds" and the title in SAR Table 6.1 was "Homogeneous Uranium Oxides/Compounds". Therefore, the NRC called GNF-A to clarify why the titles were different. GNF-A stated that the title in SAR Table 1-1 contained a typographical error, and that the title in SAR Table 1.1 should be the same as the title in SAR Table 6.1.
