Stephen

Based on our conversation early today, it is the WDEQ's understanding that the NRC Commission has voted on a pathforward in regard to W.S. 35-11-2004(c)(ii). It is our understanding that outcome was that the State will need to change the statute language at the next available opportunity. Although the change is required it will not prevent the State from entering an Agreement and will not cause any delays in the process. The WDEQ is committed to making the requested changes to W.S. 35-11-2004(c)(ii) in order to facilitate an Agreement with the NRC. Please feel free to contact me if you have any additional concerns.
