Dear Mr. Stone;

When will people see the truths
that even Ralph Nader has told
them about? Why must we
continue to pay FPL for their
services when they are giving
us services such as the one
described in the article from the
Miami Herald? Why was this
discharged allowed? Isn't there
some law?

Sincerely,

Roz J. Hamlin

pg 16A 4/16/77

company's nuclear plant in St. Lucie County will be discharged into the Atlantic Ocean today, an FPL spokesman said Friday. The water has been diluted to the point that when it is released into a cooling canal on its way to the ocean, the spokesman said, a person could drink the canal water without any radiological effect. The water is to be funneled from the canal into a pipe for discharge into the ocean 1,500 feet offshore. The 3,000-gallons of reactor cooling water overflowed a storage tank April 6 when the unit was shut down briefly following a minor fire the previous week. The water went into a 3.5-million gallon pond at the FPL plant.
