BUCKET NUMBER

PROD. & UTIL. FAC. 50-389

Mr. Marcus Rowden, Chairman  
U. S. Nuclear Regulatory Commission  
Washington, D.C. 20555

Dear Mr. Rowden:

With regard to the certification by the U. S. Nuclear Regulatory Commission (NRC) of Florida Power and Light Company's Nuclear Power Plant, St. Lucie Unit #2, Hutchinson Island, Florida, as you may know, a federal court injunction was recently granted enjoining the issuance of the certification until such time as the NRC properly considers alternate sites for this project. It is my understanding that the NRC has as yet failed to schedule these hearings.

The timely certification of this power plant is a matter of great importance to the many working men and women who are or would be employed in this endeavor. I urge you to promptly schedule the appropriate hearings on alternative sites so that the matter can be expeditiously resolved. Many workers have in fact already been laid off due to the frequent delays in this project.

Your immediate scheduling of the hearings and action on the certification would be greatly appreciated. Thank you for your attention to this matter.

Sincerely,

Robert L. Shevin  
Attorney General
