January 16, 1979

Mr. Harold R. Denton, Director
Office of Nuclear Reactor Regulation
Attn: Mr. Olan D. Parr, Chief
Light Water Reactors Branch No. 3
Division of Project Management
U. S. Nuclear Regulatory Commission
Washington, DC 20555

Serial No. 411B/071078
LQA/JEE:esh

Docket Nos. 50-280
50-281

Dear Mr. Denton:

RADIOLOGICAL EFFLUENT TECHNICAL SPECIFICATION
SURRY POWER STATION

Our response to Mr. Vanallo's letter of July 10, 1978, has been delayed beyond the date of January 15, 1979 submitted in our letter of November 3, 1978. We now intend to submit our proposed Technical Specification change, Offsite Dose Calculation Manual, and the Process Control Program by February 28, 1979. This time is needed because of the company's desire to complete the proposed North Anna radiation effluent technical specifications first and the changing guidance for these new specifications from the NRC Staff.

Very truly yours,

C. M. Stallings

C. M. Stallings
Vice President-Power Supply
and Production Operations

cc: Mr. James P. O'Reilly
Office of Inspection and Enforcement
Region II
