

VIRGINIA ELECTRIC AND POWER COMPANY  
RICHMOND, VIRGINIA 23261

May 22, 1979

Mr. Harold R. Denton, Director  
Office of Nuclear Reactor Regulation  
Attn: Mr. Albert Schwencer, Chief  
Operating Reactors Branch No. 1  
Division of Operating Reactors  
U. S. Nuclear Regulatory Commission  
Washington, DC 20555

Serial No. 374  
LQA/RMN:esh

Docket Nos. 50-280  
50-281  
License Nos. DPR-32  
DPR-37

Dear Mr. Denton:

AMENDMENT TO OPERATING LICENSE  
SURRY POWER STATION, UNIT NOS. 1 & 2  
PROPOSED TECHNICAL SPECIFICATION CHANGE NO. 70 CORRECTION

In a letter dated September 20, 1978, serial number 516, the Virginia Electric and Power Company applied for a change to the listing of hydraulic shock suppressors in the Surry Power Station Technical Specifications. There are some minor errors in that letter we would like to correct.

The "Summary of Proposed Change" attached to the September 20, 1978 letter listed two suppressors, 1-CH-HSS-301 and 1-CH-HSS-302 that do not appear on prints, are not installed, and have been deleted from the table. These should be 2-CH-HSS-301 and 2-CH-HSS-302. In the revised Table 4.17-2, a suppressor, 2-S1-HSS-24, is listed on both page 4.17-16 and page 4.17-17. The entry at the top of page 4.17-17 should be deleted.

Very truly yours,

*C. M. Stallings*

C. M. Stallings  
Vice President-Power Supply  
and Production Operations

cc: Mr. James P. O'Reilly, Director  
Office of Inspections and Enforcement
