\*The 1978 Requalification lecture series was attended by all licensed operators regardless of their exam grade.

\*\*The 1979 requalification lecture series will be attended by all licensed operators regardless of their exam grade. A portion of these required lectures were based upon material for which weaknesses were indicated on the licensing exams.

\*\*\*All currently licensed operators and senior operators will attend the 1979 requalification lecture series. This includes the reactor operators who took the 1978 exam and those who have been recently licensed. This is a total of 17 reactor operators and 17 senior operators. The lecture series is currently planned to consist of six lectures, but more will probably be conducted.
