THE UNIVERSITY OF CHICAGO

September 29, 1976
L-76-345

Office of Nuclear Reactor Regulation
Attn: Dennis L. Ziemann, Chief
Operating Reactors Branch #2
Division of Operating Reactors
U. S. Nuclear Regulatory Commission
Washington, D. C. 20555

Dear Mr. Ziemann:

Re: St. Lucie Unit No. 1 - Docket No. 50-335
Facility Operating License DPR-67
Condition of License G.1
Discharge Canal Hurricane Protection

Condition of Operating License G.1 requires that installation of erosion protection for that part of the discharge canal peninsula associated with St. Lucie Unit No. 1 be completed by June 30, 1977.

Enclosed please find the final design drawing which is submitted for your review in accordance with our letter of June 22, 1976 (L-76-232).

To achieve our June 30, 1977 requirement, construction activities must be initiated in November of this year. Your timely review of the design will, therefore, be appreciated.

Yours very truly,

J. A. De Mastry
