License Nos. DPR-32
DPR-37

Dear Mr. Denton:

I.E. BULLETIN 79-01B SUPPLEMENT 3
TMI REVIEW
SURRY POWER STATION UNIT Nos. 1 AND 2

In a telephone conversation on August 12, 1981, Mr. D. Neighbors, the NRC Licensing Project Manager for Surry Power Station, requested that VEPCO provide certain information to the Franklin Research Center. The information requested was additional information relative to our response to I.E. Bulletin 79-01B, Supplement 3. In a subsequent telephone conversation with Mr. C. J. Crane, Franklin Research Center, on August 13, 1981, we informed the Franklin Research Center that we would forward the following:

1. The Comsip-Delphi report on the Containment Hydrogen Analyzers providing IEEE test results for Model KIII and KIV Analyzers.
2. Environmental Zone Description, Volumes 1-4, for Surry Power Station which documents the environmental conditions of various plant locations.

This is to inform you that the listed information is being forwarded to the Franklin Research Center to Mr. C. J. Crane by copy of this letter.

Very truly yours,

R. H. Leasburg
