

VIRGINIA ELECTRIC AND POWER COMPANY  
RICHMOND, VIRGINIA 23261

November 5, 1981

R. H. LEASBURG  
VICE PRESIDENT  
NUCLEAR OPERATIONS

Serial No.: 615  
PSE&C/JEW  
Docket Nos.: 50-280  
50-281  
License Nos.: DPR-32  
DPR-37

Mr. Harold R. Denton, Director  
Office of Nuclear Reactor Regulation  
U. S. Nuclear Regulatory Commission  
Washington, D. C. 20555

Dear Mr. Denton:

EARLY WARNING SYSTEM  
SURRY POWER STATION

This letter is to inform you that the Early Warning (Siren Alerting) System has been constructed at Surry Power Station to comply with Appendix 3 to NUREG-0654 and is now operable. Installation and testing of the siren system for the entire ten (10) mile radius Emergency Planning Zone was completed and the system placed in service on October 26, 1981.

As noted in Vepco letter Serial Number 391 dated June 25, 1981, an integrated test of the system has been tentatively scheduled by the Commonwealth of Virginia, State Office of Emergency and Energy Services for November, 1981. The State Office of Emergency and Energy Services will coordinate this test with the Federal Emergency Management Agency.

Very truly yours,

R. H. Leasburg

JEW/ep
