Gentlemen:

We have reviewed NUREG-0794, "Protection of Unclassified Safeguards Information" published October 1981. It is intended that Vepco will establish an information protection system which satisfies the requirements of 10CFR73.21. In that the requirements imposed by the NUREG represent substantially more stringent measures than are currently being utilized and due to the scope of the modifications involved, it is not anticipated that full implementation will be achieved until on or about April 21, 1982.

Very truly yours,

R. H. Leasburg

R. H. Leasburg
