NPF-7  
CPPR-114

Dear Mr. Tedesco:

This letter is in response to your request for information concerning license applications and requests for NRC review through the year 1984 (NRC Generic Letter No. 82-1). Vepco received your request past the indicated response date and in accordance with a telephone conversation between Mr. E. R. Smith, Jr. and your office, it was agreed that the response date would be extended.

Pertaining to category 3, Vepco intends to submit application for an Independent Spent Fuel Storage Installation by January, 1983.

Pertaining to category 6, Vepco intends to submit;

- 1) a Quality Assurance Construction Topical Report for review by April, 1982,
- 2) application for Pressure Upgrading at the North Anna Power Station (Phase I by April, 1982 and Phase II by June, 1982),
- 3) application for reracking the North Anna Power Station spent fuel storage pool by May, 1982,
- 4) application for transshipment of spent fuel from Surry Power Station to North Anna Power Station by May, 1982,
- 5) application for an extension of the construction permit for North Anna Unit 3 by July, 1982,
- 6) a Summary Report for Design Evaluations for review by July, 1982,
- 7) a topical report on the new Westinghouse LOCA-ECCS Analysis Model for review by August, 1982,
- 8) a response to 10 CFR 50.54-Sensitivity Analysis by October, 1982,
- 9) a Licensing and Summary Report concerning the North Anna Power Station Core Upgrading by October, 1983 and a revised FSAR Analysis by July, 1983,
- 10) a one dimensional code called ATOM for review by December, 1982.
