Mr. Harold R. Denton, Director
Office of Nuclear Reactor Regulation
Attn: Mr. Steven A. Varga, Chief
Operating Reactors Branch No. 1
Division of Licensing
U. S. Nuclear Regulatory Commission
Washington, D. C. 20555

Serial No. 654
NO/WDC:acm
Docket Nos. 50-280
50-281
License Nos. DPR-32
DPR-37

Gentlemen:

AMENDMENT TO OPERATING LICENSES DPR-32 AND DPR-37
SURRY POWER STATION UNIT NO. 1 AND 2
PROPOSED TECHNICAL SPECIFICATION CHANGE

Pursuant to 10 CFR 50.90, the Virginia Electric and Power Company requests an amendment, in the form of changes to the Technical Specifications, to Operating Licenses DPR-32 and DPR-37 for the Surry Power Station, Unit No. 1 and 2. The proposed changes are enclosed.

This proposed change is to revise Technical Specification Tables 3.8-1 and 3.8-2. Two air operated trip valves were installed to provide containment integrity for the Post-Accident Sampling System Containment Return Lines. The manual isolation valves in the Hydrogen Analyzer System were replaced with ten remote-manual valves to upgrade the system. An air operated trip valve was removed and replaced with two direct acting solenoid valves in the Residual Heat Removal Sample Lines to increase assurance of reliable operation during accident conditions. New instrumentation replaced two air operated trip valves from the Leakage Monitoring System. Administrative and typographical errors were corrected. The proposed Technical Specification changes are enclosed in Attachment 1. The corresponding overleaf pages are also provided in Attachment 1 to provide document completeness. A discussion of the proposed changes are in Attachment 2.

This request has been reviewed and approved by the Station Nuclear Safety and Operating Committee and the Safety Evaluation and Control Staff. It has been determined that this request does not pose an unreviewed safety question as defined in 10 CFR 50.59.

We have reviewed this request in accordance with the criteria in 10 CFR 170.22. Since this request involves a safety issue which the staff should be able to determine does not involve a significant hazards consideration for Unit 1 and a duplicate safety issue for Unit 2, a Class III license amendment fee and a Class I license amendment fee are required for Unit 1 and Unit 2, respectively. A check in the amount of \$4,400 is enclosed in payment of the required fees.

Very truly yours,

W. L. Stewart
