NPF-7

Gentlemen:

VIRGINIA POWER
NORTH ANNA UNITS 1 AND 2
SURRY UNITS 1 AND 2
SUBMITTAL OF ADDITIONAL INFORMATION
FOR GENERIC LETTER 83-28
ITEM 2.1.A AND 2.2.1

Our earlier correspondence of 2-8-85 indicated additional information is required to complete our response for item 2.1.A and associated item 2.2.1 of GL83-28. The additional information relates to our plan and schedule for development of a Quality List for Classification of Safety Related Components.

Our 2-8-85 response described our Equipment Classification Program for Safety Related equipment. To improve our program we indicated a plan to develop a more complete listing of Safety Related components. The listing will identify and classify components within Safety Related systems. A contract has been awarded to an outside consulting firm to produce the listing of Safety Related components. The estimated date for completion of this listing is the end of the second quarter of 1987.

If you should require further information, please contact us.

Very truly yours,

for W. L. Stewart
