MAY 11 2018

To Whom It May Concern:

Enclosed is the final After Action Report/Improvement Plan for the Three Mile Island Nuclear Generating Station (TMI), Medical Services (MS-1) Drill that was held on March 28, 2018. The Wellspan Good Samaritan Hospital and First Aid and Safety Patrol Emergency Medical Services (EMS) participated in the drill.

There were no Level 1 Findings, Level 2 Findings, or Plan Issues identified during the drill.

Based on the results of the exercise and a review of the offsite radiological emergency response plans and procedures submitted, FEMA Region III has determined they are adequate (meet the planning and preparedness standards of NUREG-0654/FEMA-REP-1, Revision 1, November 1980, as referenced in 44 CFR 350.5) and there is reasonable assurance they can be implemented, as demonstrated during this exercise.

If you have any questions, please contact Thomas Scardino at (215) 931-5546.

Sincerely,

MaryAnn Tierney  
Regional Administrator
