RE: Amendment to NRC License No. 21-01549-02 MidMichigan Health

Dear Mr. Strohmeyer:

I am sending this letter as additional information regarding a license amendment request that is currently under your review. In my previous letter dated May 5th, 2018, I had requested to add Susan M. Sallach, MD as an authorized user for 10 CFR 35.100, 35.200, and gadolinium-153. The request for her authorization for the use of gadolinium-153 was in error as we are not authorized for this material under our radioactive materials license.

Please accept my apology and request to add Susan M. Sallach, MD as an authorized user for 10 CFR 35.100 and 10 CFR 35.200, only.

If you have any further questions, please feel free to contact me at any time (989-839-1407). Thank you.

Sincerely,

Victor D. Hosfeld, MS, DABR
Radiation Safety Officer, MidMichigan Health
Chief Physicist, MidMichigan Health
