Mr. Edson G. Case
Director of Nuclear Reactor Regulation
Attention: Mr. S. L. Varga, Branch Chief
Light Water Reactors Branch 4
Division of Project Management
U.S. Nuclear Regulatory Commission
Washington, D. C. 20555

Subject: COMMUNICATION REGARDING WNP-2 LICENSING ACTIVITIES

Dear Mr. Case:

In response to a verbal request by Mr. David Lynch, Licensing Project Manager for WPPSS Nuclear Project No. 2, the following information regarding communications on licensing issues is provided.

Mr. Lynch has requested clarification of the proper communication channel with WPPSS due to the fact that individuals other than Mr. Kimmins represent WPPSS in the Mark II owners group and follow the Mark II containment load studies.

All licensing communications conducted via telephone between the NRC staff and Washington Public Power Supply System relative to WPPSS Nuclear Project No. 2 should be directed to Mr. Angus Kimmins, Licensing Engineer, (509-377-2501). In Mr. Kimmins' absence, communication should be directed to his management, either Mr. G. C. Sorensen, Supervisor, Licensing Engineering (509-375-5376) or Mr. O. E. Trapp, Manager of Safety and Analysis (509-375-5401).

Should you have any questions regarding this subject, please advise me.

Very truly yours,

D. L. RENBERGER
Assistant Director
Generation and Technology
