

UNITED STATES
NUCLEAR REGULATORY COMMISSION
WASHINGTON, D.C. 20555-0001

October 9, 2019

Mr. James A. Gresham, Manager
Regulatory Compliance and Plant Licensing
Westinghouse Electric Company
P.O. Box 355
Pittsburgh, PA 15230-0355

SUBJECT: REQUESTS FOR WITHHOLDING INFORMATION FROM PUBLIC
DISCLOSURE THE JULY 9, 2018, PRESSURIZED WATER REACTOR
OWNERS GROUP, SUBMISSION

Dear Mr. Gresham:

By letter dated July 9, 2018 (Agencywide Documents Access and Management System (ADAMS) Package Accession No. ML18193A455), Pressurized Water Reactor Owners Group (PWROG) submitted an affidavit dated July 6, 2018, executed by Edmond J. Mercier of Westinghouse, requesting that the information contained in the following document be withheld from public disclosure pursuant to Title 10 of the *Code of Federal Regulations* (10 CFR), Part 2, Section 2.390:

Submittal of Supplement for PWROG-17034-P, "Evaluation of the
WCAP-10325-P-A Westinghouse LOCA Mass & Energy Release Methodology
(PA-ASC:-1420)"

A non-proprietary version of the document can be found at ADAMS Accession No. ML18193A455.

Westinghouse detailed the reasons for withholding the information in the affidavit.

The NRC staff has reviewed your application and the material in accordance with the requirements of 10 CFR 2.390 and, on the basis of the statements in the affidavit, has determined that the submitted information sought to be withheld contains proprietary commercial information and should be withheld from public disclosure.

Therefore, the version of the submitted information marked as proprietary will be withheld from public disclosure under 10 CFR 2.390(b)(5) and Section 103(b) of the Atomic Energy Act of 1954, as amended.

Withholding from public inspection shall not affect the right, if any, of persons properly and directly concerned to inspect the documents. If the need arises, the agency may send copies of this information to its consultants working in this area. The NRC staff will, of course, ensure that the consultants have signed the appropriate agreements for handling proprietary information.

If the basis for withholding this information from public inspection should change in the future such that the information could then be made available for public inspection, you should promptly notify the NRC staff.

You also should understand that the NRC staff may have cause to review this determination in the future, for example, if the scope of a Freedom of Information Act request includes your information. In all review situations, if the NRC makes a determination adverse to the above, you will be notified in advance of any public disclosure.

If you have any questions regarding this matter, I may be reached at 301-415-1186.

Sincerely,

/RA/

Leslie Fields, Senior Project Manager
Plant Licensing Branch IV
Division of Operating Reactor Licensing
Office of Nuclear Reactor Regulation
