**Subject:** Submittal of Bechtel Quality Assurance Program for Nuclear Power Plants Topical Report, BQ-TOP-1, 2007 Edition, Revision 003

**Reference:** 1- ADAMS Accession No.: ML15034A419, Final Safety Evaluation for Bechtel Topical Report, BQ-TOP-1, 2007 Edition, Revision 2, "Quality Assurance Program for Nuclear Power Plants" (TAC NO. ME3676)

Dear Sir/Madam:

By letter dated June 18, 2015, Bechtel Quality Assurance Program for Nuclear Power Plants, Topical Report BQ-TOP-1, 2007 Edition, Revision 2 received the U.S. NRC Final Safety Evaluation and Acceptance-for-Use (Reference 1).

Since the acceptance letter, there have been recent changes that warranted a revision to the aforementioned Topical Report.

The revision, as submitted in enclosure 3, addresses organization restructure, changes in job titles and line of reporting, corrections and editorial changes, and adoption of recently issued U.S. NRC Regulatory Guide(s) (RGs) and Regulatory Issue Summary (RIS).

Thus, we believe, with reasonable assurance, that there have not been any changes in the proposed revision that amount to reduction in exiting commitment(s).

Enclosures 1 through 3 are provided to the NRC for review and evaluation.

Should you have any questions or require further clarification please do not hesitate to contact me.

Respectfully,

Tamer Rezk  
Manager of Quality Assurance  
Bechtel Power Corporation
