Subject: Sealed Sources on License

Discussion:

I discussed with the prospective RSO the sealed source models on the license. Since I was reformatting the license to the new format, I looked in the SSD database for the sealed sources listed on amendment 12 of their license. I could only find one of the sealed sources listed (XFB-5). The RSO stated that their source is a XFB-5 and they would only replace their source with that model source and I could remove the PHI-109-10 source model off of their license.

Action Required: Remove model PHI-109-10 source off of the license.
