Pierre Saverot, Project Manager – Licensing Branch  
Division of Spent Fuel Management  
Office of Nuclear Material Safety and Safeguards  
ATTN: USNRC Document Control Desk  
U.S. Nuclear Regulatory Commission  
Washington, DC 20555-0001

Docket No.: 71-9375  
EPID: L-2017-LLA-0059 (previously CAC No. L25185)

Subject: Submittal Date for Responses to NRC's Second Request for Additional Information (RAI) for HI-STAR ATB 1T package application

Reference: "Second request for additional information for the review of the model no. HI-STAR ATB 1T package" (Letter from Pierre Saverot (NRC) to Royston Ngwayah (Holtec) dated May 29, 2018)

Dear Mr. Saverot,

By letter dated May 29, 2018 (referenced), NRC staff documented their second round of request for additional information (RAI) that are required to complete the detailed technical review of the HI-STAR ATB 1T package application. NRC requested that Holtec provide the additional information by August 6, 2018, and proposed a public meeting for NRC staff and Holtec to discuss specific aspects of the submittal.

Holtec is working towards a meeting date of August 24, 2018 to discuss the submittal with NRC. Therefore RAI responses will be delayed and submitted at a later time this year.

If you have any questions, please contact me at 856-797-0900, ext. 3844.

Sincerely,

Royston Ngwayah  
Licensing Engineer  
Holtec International
