Donald C. Cook Nuclear Plant Unit No. 1
Docket No. 50-315
DPR No. 58

Mr. Edson G. Case, Acting Director
Office of Nuclear Reactor Regulation
U. S. Nuclear Regulatory Commission
Washington, D. C. 20555

Dear Mr. Case:

A thirty day extension is hereby requested for the surveillance interval required by Technical Specification 4.7.8.1.3 for the Donald C. Cook Nuclear Plant Unit 1. This specification concerns the functional testing of the hydraulics snubbers which must be performed while the reactor is shut-down. At present, the next surveillance test is due on or before March 24, 1978. A thirty day extension of this deadline is requested so that we might have flexibility in scheduling the refueling outage to begin in late March or early April.

Very truly yours,

John Fillingimast
