August 1, 2018

Currently there are two bills moving through Congress.  
Both bills call for re-newing production of ***Tactical Nuclear weapons***, which would be used on our submarines.

Consider H.R. 5515 and H.R. 6157, together the costs may exceed  
\$1.3 Trillion Dollars, by far the largest Military/Defense appropriations Bills in History.

Please contact your representatives on Congress and lobby to either vote against the bills or - at least- against the provisions for tactical nuclear weapons. These bills must be finalized by September 30.

For background information, see my Tweets at Arn Specter  
over the last month or so.

NO MORE NUCLEAR WEAPONS!
