Dear Nuclear Regulatory Commission Staff:

Not planning ahead about what to do with nuclear waste is NO excuse for using land belonging to Native Americans. By all means reject Holtec International's application for a Consolidated "Interim" Storage Facility (CISF) for high level nuclear waste! IN addition, because centralized or consolidated interim storage sites are NOT allowed under US federal laws to the extent the Department of Energy and US taxpayers are expected to own and transport the waste. It is an ILLEGAL DUMP.

Do not reward dishonest Tetra Tech for Holtec. They should not be doing the environmental analysis. For 20 years Tetra Tech has been falsifying radiation monitoring data, deliberately spreading radioactive soil and waste to previously clean places on and offsite, using unqualified workers to supervise radioactive scanning and cleanup efforts and suppressing and firing whistleblowers at the Navy's huge Hunters Point nuclear site in San Francisco.

The Holtec site VIOLATES ENVIROMENTAL and ECONOMIC JUSTICE, period.

I feel sure others are sending long lists of problems. I agree with them and urge you to do what's best for the U.S. Encourage R & D that will come up with a real solution to this situation.
