**Subject:** follow-up on NRC request for review/comment on Draft Environmental Assessment for WRT

Dear Mr. Perez,

On July 5, 2018, the Nuclear Regulatory Commission (US NRC) sent the California Department of Health a correspondence with the subject "Opportunity to Comment on the Draft Environmental Assessment for Water Remediation Technology, LLC's License Renewal Application for Source Materials License Number SUC-1591 and Approval Request of an Expanded Scope of Licensed Activities (Docket Number: 40-9059)."

The purpose of this email is to request if the State of California has any comments on the draft EA as the comment period is about to close. We appreciate any feedback you can provide.

Sincerely,

Monika Coflin, CISSP  
Project Manager  
NMSS/FCSE/ERB
