SUBJECT: Request for Extension for RAI Request issued April 5, 2018 (ML18060A063)

REF: The University of Texas at Austin Docket 50-602, License R-129

Sirs:

We respectfully request an extension of the time allowed to respond to the Request for Additional Information issued April 5, 2018. The original request for additional information and a second copy (transmitted July 11, 2018) has not been received at the facility to date. A copy was received on July 24 by secure electronic transmission.

We are prepared to address most of the items in the RAI at this time, but one item remains unresolved pending receipt of information from the University of Texas Police Department. We therefore request an extension for completing the response to September 30, 2018. This extension will provide time to obtain the required information from UTPD, complete the response submittal, revise the subject document, and conduct a comprehensive review by our staff prior to submission.

Please contact me by phone at 512-232-5373 or email at whaley@mail.utexas.edu if you require additional information or there is a problem with this request.

P. M. Whaley
Associate Director
Nuclear Engineering Teaching Laboratory
The University of Texas at Austin

I declare under penalty of perjury that the forgoing is true and correct.
